

ENGINEERED *Elegance*™

## The Digital Dash kit offer a complete set of digital gauges ready to install.

The Digital Dash kit digital gauge set is an easy to use Analog style instrument, with advanced ECU monitoring capabilities demanded by today's leading engine manufacturers.

The digital instrumentation communicates directly with the NMEA 2000 and SmartCraft protocols used by the engine ECU providing an important link between the operator and the engine ECU. With just a push of a button the operator can tell the status of the health of the engine including diagnostic messages, fault alerts, and parameter information. The Digital Dash kit from Faria is a great value for those boat owners looking to upgrade the instruments on their boat with American Made, OEM drop in replacements.

### NMEA 2000

Base Set - KTF034	4 Gauge Box Set - KTF032
MG3000 Tachometer MG1000 Speedometer	MG3000 Tachometer MG1000 Speedometer Trim Water Pressure (0-60 PSI)

### SmartCraft

Base Set - KTF043	4 Gauge Box Set - KTF042
MG3000 Tachometer MG1000 Speedometer	MG3000 Tachometer MG1000 Speedometer Trim Water Pressure (0-60 PSI)

Harnesses Available - Connects from engine to backbone for quick connections to gauges.

**HONDA MARINE**  
(KTF035)
